

# Our Covid-19 procedures

*Last update June 2022*

From 1 May 2022 the stay in all **accommodation** facilities in Italy and the **access** to bars, restaurants - both outdoors and indoors - is allowed **without showing any certification and without the obligation of a mask.**

In this update, our prevention measures to counter the spread of the infection because, **despite the state of emergency is over, we will continue to protect your health and that of our employees** by maintaining certain procedures. In fact, Eurcamping has always shown dedication to the protection of its spaces, guaranteeing a safe and clean experience with responsibility and ethical sense.

- also, in the season 2022 EURCAMPING - **to make all common services more usable** - (swimming pool, toilet facilities, entertainment, restaurant, etc.) will work at "**reduced accommodation capacity**";
- **sanitizing gel dispensers (70% alcohol)** will always be available in several points of the structure;
- the posting of **some signs** will be maintained which will suggest the adoption of precautionary attitudes;
- in the **housing units** (Bungalows, Mobile Homes, Glamping) sanitation will remain in place at each change by atomization of AIRO hydrogen peroxide (disinfectant with chemical compound recommended by the Ministry of Health for the prevention of Coronavirus);
- the right spacing on the **pitches** will always be ensured for greater peace of mind;
- **in the toilets**, the exchange of air necessary to reduce / cancel the concentrations of specific pollutants (PM10, CO2, odors, biological aerosols, etc.) will be constantly ensured, through natural circulation, as well as the frequent spraying of active chlorine 0, 1%;
- the opening of the bath and the use of the shower on our bathing concession with the "**No Touch**" system will remain in place using the microchip of the identification bracelet of the structure;
- the opening hours of the **swimming pool** will be maintained from 10.00 to 19.00 without interruption in order to spread over a longer time space the turnout;
- as every year, before opening, the hydro-sanitary systems will be checked and treatment with 100% biodegradable biocides will be carried out to **prevent and counter the risk of legionellosis intoxication**;
- in addition, this year, all of our masonry bungalows were painted internally using the **Optima A + anti-pollution health paint** from the *Max Meyer company*;

In order that greater freedom does not favor the risk of infection with new Coronavirus, each of us must assume its daily responsibilities. Therefore, we need your constant cooperation;

## **Healthy holidays, peaceful holidays!**

**The quality of your holiday is important: health comes first at Eurcamping!**

We conclude by recalling our motto that has accompanied us in these last two years:

**"Physically distant but socially together with" common sense "it is possible!"**
